GENERAL INFORMATION:

Soap Pendant Light represents the magic of iridescence and is inspired by the characteristics of soap bubbles with their varying colours, transparency, and continuously changing shapes. When lit, their metallic sheen magically transforms to an iridescent and translucent one. Each piece is hand-blown without a mould, producing a truly unique shade in both shape and colour.

Soap Pendant Light is available in five a Gold, Silver, Blue, Frosted or Clear glass finish and in a mini, small and large size.

Please note this item is supplied with a single canopy. Other canopies and canopies for cluster installations are also available. For more information please contact customer service.
