

# DONUT SURFACE-MOUNTED ACOUSTIC (STANDARD GRADE)

PROJECT
SPEC TYPE
NOTES

## GENERAL INFORMATION:

Combining the elements of color, shape, light, and sound, the rainbow family is an extremely versatile lighting tool for a range of projects. Available in three sizes: 23,6", 35,4", 47,2"., a beveled regress from the outer profile reveals an evenly illuminated satin lens or sound-absorbing felt in a range of color options. Choose from direct, indirect, or direct indirect light, plus different colors for the inside bevel and outside frame to match the vibe of your application. Add sound-absorbing felt in place of lighting on the direct side for warmth, texture, and increased acoustical comfort. Combine lit and unlit with acoustic options in various sizes to create a coordinated design aesthetic.
