GENERAL INFORMATION:

A small wall bracket and a sphere made of hand-blown glass – this is all Marchetti needs to create a visually restrained, yet very attractive wall light, such as the Luna AP. The luminaire is only 13.5 cm in diameter, thus taking only very little space on the wall. Especially the white variant of the Marchetti Luna wall light blends unobtrusively with a white wall.

This wall light made in Italy is often installed in a hallway, where its foremost function is to provide orientation. However, it also creates a welcoming atmosphere with its cosy mood light. This also comes into its own in the bedroom, where the Marchetti Luna wall light may be mounted above a chest of drawers or a dressing table.

MATERIAL:

Glass and metal

FINISHING (BODY AND CANOPY):

Satin gold, White, Black
