NOTES

GENERAL INFORMATION:

Acquaglobo is a floating lamp family: everyone has got a spherical shape, but in different dimensions. Acquaglobo is suitable for outdoors and elegant events. These floating lamps made in lightening polyethylene have got a particular structure, which allow Acquaglobo to light when it is in water. Acquaglobo is simple and linear, but at the same time is very impressive: this floating lamp is ideal for elegant and important events near swimming pool and to create a sensual and upper class ambience.
